mirum access PLUS Navigating Together

ATEBRIOZ™
zilurgisertib tablets 25mg

From Prescription to Patient.
The ATEBRIOZ Fulfillment Process.

Once you prescribe ATEBRIOZ, Mirum Access Plus (MAP) provides support for your office and patients from prescription through refill.

START THE PRESCRIPTION JOURNEY

Fax the completed patient enrollment and consent forms to **1-855-282-4884**

COVERAGE VERIFICATION

MAP will verify benefits, identify coverage requirements and engage a Regional Access Director (RAD) to help navigate the approval process

PATIENT BEGINS THERAPY

Once coverage is approved, MAP will work with the specialty pharmacy Eversana to have the patient's shipment coordinated

SUPPORT ALONG THE WAY

If coverage requires additional documentation or gets denied, the MAP team can provide information, resources and support.
Call **1-855-676-4698** to access support

KEEP THE JOURNEY MOVING

MAP helps with insurance changes, refills, adherence support and financial options for eligible patients*

Additional helpful resources for you and your patients are available on mirumaccessplus.com

Questions?

Call MAP at **1-855-MRM-4YOU** (1-855-676-4968)
Monday–Friday, 8:00 am–8:00 pm ET

*Subject to program terms and conditions.

Navigating the Medical Exceptions Process

mirum access PLUS Navigating Together

Some payers may require a coverage exception when a medication is not on formulary or is subject to a new-to-market restriction. If a claim is rejected, MAP will confirm the reason with the payer and ask which submission requirements apply.

Important steps in the medical exceptions process

Prescribe
Patient Enrollment Form (PEF) is processed by pharmacy and flagged by rejection

Patient Assistance
Select the UPAP/PAP option on the PEF to have the patient considered for patient assistance

Request Exception
HCP submits medical exception/ LMN with clinical rationale + supporting documentation process

Plan Review
Payer evaluates medical necessity and may request additional information or peer-to-peer

Access/Appeals
APPROVED: Claim override

DENIED: Appeal, peer-to-peer, or external review

What the HCP's and their offices may need to provide:

- ✓ **Diagnosis** FOP Diagnosis and supporting clinical documentation
- ✓ **Why this drug** Rationale for therapy and expected benefit
- ✓ **Patient context** Disease history, severity, and functional impact
- ✓ **Rx details** Any current or prior FOP treatment options

We are RARE. We are HERE. We can HELP.

Regional Access Director (RAD)

- Utilizes insurance policy and coverage expertise to navigate medication access hurdles
- Provides reimbursement support, including resources to assist in appeals
- Coordinates with the specialty pharmacy on financial support when available

Scan or visit **mirumaccessplus.com** for helpful resources to get started.
