Navigating
Together

**Support that understands.
Care that connects.**

**Read more to learn about Mirum
Access Plus (MAP),** a support program
that helps patients and caregivers get Mirum
medication and connect with helpful resources.

Visit mirumaccessplus.com for more
information on how to enroll

What MAP

has to offer

MAP offers reliable support, from your first prescription through every refill.

**Here is what MAP can help with
at no cost to you:**

Understanding insurance coverage and eligibility for financial support programs

Getting medication as quickly as possible

Connecting you with information and resources about Mirum medications

**Meet your
MAP team!**

MAP Patient Navigator

MAP Patient Navigators are here from start to finish to help you navigate accessing Mirum medications. This includes providing education related to your medication, answering your questions about health insurance, and exploring your options for financial assistance.

**When you consent to join MAP,
you'll get customized support and
resources tailored just for you.
We're here whenever you need us—
every step of the way.**

Coordinating insurance coverage

MAP will review your insurance benefits and explore your options for financial support. If your medication is not approved by your insurance at first, we have a team of experts and tools to help provide support on next steps.

Financial assistance

Eligible patients with commercial insurance may pay as little as \$0 or \$10 out of pocket per fill of medication through the Mirum Access Plus Savings Programs.*

The Mirum Patient Assistance Program provides assistance for those who may qualify for financial support.*

Filling your prescription

Once your prescription is approved, you'll receive a phone call from your Patient Navigator. They will confirm your shipping information before the pharmacy sends your medication.

You can also request your refills digitally through MAP Mobile, our online platform that helps you manage everything related to your medication.

Ongoing support

You will have a dedicated Patient Navigator who stays with you from the start, is ready to answer questions, listens to your concerns, and connects you with helpful resources. Your doctor will always guide your treatment decisions. We are here every step of the way.

*Subject to program terms and conditions.

Enrolling in MAP is easy!

When your doctor prescribes a Mirum medication, there are **3 ways** you can enroll to unlock all the support MAP has to offer.

MAP Mobile

Call MAP and your Patient Navigator will give you access to MAP Mobile so you can digitally sign your consent form.

Download, sign, and send the MAP Consent Form

to MAP@mirumpharma.com, through mail, or by fax following the directions on the form.

Sign the consent form at your doctor's office

When your doctor completes the enrollment form, you may sign it in person and MAP will contact you.

MAP Mobile

Mirum Access Plus offers MAP Mobile—a simple online tool to help you manage your medication.

Enroll in MAP Mobile to:

Navigate updates on your prescription

Access helpful medication information

Manage your refills

Get educational resources
